

# Social Perspective

## LCCC Increases State Income

- The activities of LCCC's 2008-09 student body will generate about \$26.5 million in labor income in the state economy each year.
- Once LCCC's current students become active in the workforce, they will promote business output, raise consumer spending, and increase property income in the state. All of this contributes an additional \$14.5 million in taxable income each year.
- Altogether, higher student income and associated effects on business productivity add \$40.9 million in income annually to the state economy.

## LCCC Reduces Social Costs

- Education is statistically correlated with improved lifestyle behaviors, including reduced incidences of absenteeism, alcohol abuse, and smoking, lower probability of committing crime, and fewer welfare and unemployment claims.

### Annual Benefits to the Pennsylvania Public Due to LCCC (\$ Millions)

- It is estimated that LCCC's 2008-09 student population will generate social savings to the Pennsylvania public equal to \$1.9 million a year.
- These savings accrue to all state and local residents—students, homeowners, businesses, and taxpayers.
