## **Continuing Education Program Equivalencies**

## **Non-Credit to Credit Programs**

Students enrolling will be awarded the credit equivalencies after the completion of their first course. Please see the following non-credit courses, the programs of study, and courses equivalencies.

| LCCC Non-Credit Courses                 | Programs of Study   | LCCC Credit Courses  | Number<br>of<br>Credits |
|---|---|--|-------------------------|
| Industrial Electricity I, II, III       | Diploma in Industrial Maintenance  Certificate in Industrial Maintenance  | EET 120 Electrical<br>Theory   | 4                       |
| Programmable Logic Controllers I and II | Diploma in Industrial Maintenance  Certificate in Industrial Maintenance  | GET 203<br>Introduction to<br>Programmable<br>Logic Controllers          | 3                       |
|   | Applied Associate Degree in Engineering Design and Manufacturing Applied Associate Degree in Mechantronics  |  |                         |
| Fluid Power, Pneumatics & Hydraulics    | Diploma in Industrial Maintenance  Certificate in Industrial Maintenance  Applied Associate Degree in Engineering Design and Manufacturing  Applied Associate Degree in Mechantronics       | GET 207 Fluid<br>Power Applications                                      | 3                       |
| Industrial Motor Controls I, II, III    | Diploma in Industrial Maintenance  Certificate in Industrial Maintenance  Applied Associate Degree in Electrical Construction Technology  Certificate in Electrical Construction Technology | GET 205 Electromechanical Devices or  CEL 121 Electrical Motor Control I | 3                       |
| Welding Program                         | Diploma in Welding  | WEL 100<br>Introduction to<br>Welding                                    | 3                       |
