

If you test positive for COVID (Isolate)

Regardless of vaccination status

- Stay home for 5 days and isolate yourself from others in your home
- Wear a well fitted mask if you have to be around others in your home

Ending isolation if you had symptoms

End isolation after 5 full days if you are fever free for 24 hours (without the use of fever reducing medication) and your symptoms are improving. If you were severely ill and your symptoms are not improving CDC recommends isolating for at least 10 days.

Ending isolation if you did Not have symptoms

End isolation after 5 full days after your
positive test.

Calculating Isolation

- To calculate your 5 day isolation period:
- Day 0 is your first day of symptoms or a positive test. Day 1 is the first full day after your symptoms develop. You can leave isolation after 5 full days.
- If you test positive and had no symptoms:
- Day 0 is the day of your positive test (based on the day you were tested) and Day 1 is the first full day after the test specimen was collected. You can leave isolation after 5 full days.

Exposure to someone with COVID-19

- If you: Have been boosted OR Completed the primary series of Pfizer or Moderna vaccine within the last 6 months OR Completed the primary series of J&J vaccine within the last 2 months, you do not need to quarantine unless you develop symptoms.

When to quarantine?

- If you: Completed the primary series of Pfizer or Moderna vaccine over 6 months ago and are not boosted OR Completed the series of J&J over 2 months ago and are not boosted OR are unvaccinated stay home and quarantine for 5 days after your last contact with the positive case. Date of exposure is considered Day 0. Day 1 is your first day after exposure.

Campus Reminders

- Masking is required indoors in all campus buildings regardless of vaccination status.
- Sanitizing wipes remain in all classrooms.
- Anyone in need of a mask while on campus can pick one up at the campus security office in Building 1.
- If experiencing COVID-19 symptoms: fever, cough, shortness of breath, sore throat, headache, congestion, body aches, loss of taste or smell, nausea, please do not report to campus. Stay home and contact your doctor to determine if a COVID test is needed.
